

# COLORADO RIVER - GLEN CANYON TO LAKE MEAD

## TYPICAL SUMMER FLOW CYCLES

(APRIL - SEPTEMBER)

**CAUTION**

**TO USE THIS CHART:**

- (1) Find the location or reach of the river of your interest at the left edge of the chart.
- (2) Find the day and time or period of days or hours of your interest at the top of the chart.
- (3) Follow a line to the right from your location parallel with the top of the chart until you reach a point or period directly under your time or period of interest.
- (4) Your interest time or period for your location will fall in one or more of the color bands. They indicate the flow cycles as follows:

	Highest daily flows		Lowest daily flows		Increasing flows		Decreasing flows
--	---------------------	--	--------------------	--	------------------	--	------------------

NOTE: See additional information on reverse side.
